ART IN CHINA (OXFORD HISTORY OF ART) BY CRAIG CLUNAS PDF

China boasts a history of art stretching over 5,000 years and embracing a vast array of forms--objects of jade, lacquer and porcelain, painted scrolls and fans, sculptures in stone, bronze and wood, and murals. With more than 130 halftone illustrations, including almost eighty in full color, this new edition of *Art in China* presents the finest one-volume introduction to all forms of Chinese art. The book examines Chinese art in a variety of contexts--as it has been designed for tombs, commissioned by rulers, displayed in temples, created by the men and women of the educated elite, and bought and sold in the marketplace. Drawing on recent innovative scholarship--and newly accessible studies in China itself--Craig Clunas surveys the full spectrum of the visual arts. This updated edition contains expanded coverage of modern and contemporary art, from the fall of the empire in 1911 to the contemporary video art scene.

Hard to Process

By blackstone lake

I'm not an expert on Chinese Art but i do know something about art history so I was looking for a text to give me more depth in the subject. I have to say i find this text very dense and hard to follow. You may prefer it's organizational principle- with chapters on "Art in the Tomb" or "Art at Court" or "Art in the Temple"- i know many do- but I do not. For instance as a novice I find Michael Sullivan's "The Arts of China" easier to digest. Just my opinion.

Extremely difficult to follow for the beginner student of Chinese ...

By Kee Kimbrell

Extremely difficult to follow for the beginner student of Chinese Art. The pages of my book were also sewn together out of order which didn't help.

0 of 0 people found the following review helpful.

Decent quality - not my preference

By Kelly Tang

I bought this book for my Art History class. I barely opened this book because the concepts were confusing. The pictures were of decent quality, but there were very few of them. I would prefer an art book to have more pictures.
