The Ultimate Grail

By Antonio Sacin (abreviatio@aol.com)

In spite of his discussion of the NEZ people (Non-Erroneous Zone for the neophyte) I found the overall quality of the book to be good. The NEZ description appeared to be of a typical saint, although too detached from social interaction to be of my liking. I have read many of his other books and the good thing about this guy is that you can almost see the time progression of his ideas (they change from time to time, although not too radically).

7 of 7 people found the following review helpful.

this is a great book

By shawn

before I read this book, I was going trough a tough time. When my dad gave it to me, I didn't think it was gonna be any help, but it helped me to look at life in a new way. I would suggest reading this book at least once.
