FACEBOOK FATWA: SAUDI CLERICS, WAHHABI ISLAM AND SOCIAL MEDIA BY JONATHAN SCHANZER, STEVEN MILLER PDF

Following al-Qaeda's violent campaign against Saudi Arabia in 2003 and 2004, Saudi authorities launched a crackdown on radicalism in the Kingdom. This included tighter controls on terror finance, dismantling al Qaeda's local cells, monitoring the country's mosques, and a state-sponsored de-radicalization program designed to combat what Saudi authorities call "deviant" ideologies. But what of the problems associated with internet radicalization? Is Saudi-sponsored radicalization still a problem online? Or has it waned as a result of the Saudi authorities' efforts? A decade after the September 11 attacks that prompted a deep and protracted crisis in U.S.-Saudi relations, the Foundation for Defense of Democracies (FDD) commissioned a study to gauge the sentiment, influence, and reach of Saudi clerics on the internet. Facebook Fatwa provides a glimpse of the religious establishment's online activities during a critical moment in the Middle East.

Solid Information

I wanted to see what individuals on social media in Saudi were saying about Wahhabi Islam, clerics-- anything. Because I can't read Arabic, this review of what is being said online and by whom was useful to me. I found especially useful the commentary on which religious leaders both in the approved religious establishment and outside of it have influence on young Saudis. The analysis about the various positionms by different clerics on different issues was somewhat confusing in that the authors seemed to be tring to pigeon hole religious leaders. Still I found the various postiiions interesting. Given the importance of religion to most Saudis, being able to read what key influential religious figures are saying is very worthwhile to me. So while the book isn't a breezy read, it is factual and worthwhile for those interested in following religious discourse in Saudi and its influence on the young who utilize social media.

short and easy to read, but provides good info, to the point

Good study of the Wahhabi movement in Saudi Arabia and what the Gov't has tried to do in order to deradicalize the Shayukh there and the religious establishment since 9/11. Focuses on a handful of most prominent Saudi Wahhabi clerics, sanctioned and unsanctioned. Even has charts in the back w the Clerics tweets, which are using social media most. Where they've stood and stand on issues both past and present and what the Govt has done to reduce extremism there. Also read, "The Great Theft". By Khaled Abou El Fadl

Terrorism and the use of Social Media

By PTD

If you ever wanted to know how it is that radical Islamic groups like ISIS and Al Qaeda are so successful in their use of the internet and social media,

this is a must read. Excellent research and narrative. Schanzer and the FDD have done a stellar job.
