# **GETTING STARTED IN REAL ESTATE DAY TRADING: PROVEN TECHNIQUES FOR BUYING AND SELLING HOUSES THE SAME DAY USING THE INTERNET! BY LARRY GOI PDF**

Real estate day trading is using the Internet to buy and sell houses without leaving home. In many cases, the investor closes on a house and resells it the same day. Readers will learn the author's system for how to buy and sell 5-10 houses a month in today's market, using the Internet, phone, fax, and email to analyze, research, and find the properties, buyers, and others needed for the transaction. Author Larry Goins has personally done deals in nine different states and has students in the US, Canada, Australia, New Zealand, Japan, China, Israel, the Philippines, and Denmark. Day trading can be used for wholesaling properties to other investors, retailing, lease options, short sales, foreclosure investing, etc. The basic steps are:

- Search online for potential properties to make offers on, using specific techniques for finding the right ones.
- Once an offer is accepted, usually within 1-2 weeks, put it on paper using clauses included in the book, and get the property inspected by a rehab contractor to get a free estimate of how much the repairs will cost. This is done by finding reputable contractors online and through referrals from realtors and through autoresponders.
- Order an appraisal.
- Sell it fast! Using the buyers list you have built on the internet through email marketing groups, social networking sites, blogs, free classified sites, bank-owned property sites, and more, send an email with the details of the property and instructions on how they can get the property under contract. Usually within two hours several potential buyers will reply.
- Set up a closing to buy it and to sell it on the same day; closings are about 30 minutes apart. Buy it at 10:00 and sell it at 10:30, for example.
- There are many ways to fund and close on the property. The book will contain step-by-step, easy processes for assignments, options, flex options, simultaneous closings, using hard money, private money, cash partners, and credit partners, none of which will require an investor's own cash or credit.

Fire starter!

By Marvin Hernandez

Let me start off by saying that I am a real person and I truly read and bought this book by Larry Goins, my name is Marvin Hernandez and I live in the South Florida area of Hialeah Gardens, Florida. I have bought many books on real estate investing and have been trapped like many of us with "analysis paralysis". I have been studying Real Estate investing since September, 2007, and since then wanted to invest in Real Estate, but with no credit and no money, the traditional ways of investing were not feasible for me, therefore was stuck for 3 and a half years finding the best strategy for me to start. During these years I was able to learn a wealth of knowledge on Real Estate investing, but was stuck due to my analysis paralysis syndrome.

When looking on Amazon.com for yet another book to read on Real Estate investing, I fell upon onto Larry's book, and the truth is that the title of the book caught my attention. Well, after buying and reading the book I was hooked, the knowledge that is dispensed on this book is great, it teaches about property wholesaling in a way so that you could do it most of it, if not all from behind your computer screen, with a phone, fax capabilities, and a website if you so desire.

But the most important part that I got from this book is that it gives you step by step of what you need to do in order to get going in your investing career, and it put the fire in me to get moving, after reading the book I have started to create an investing company, I am currently creating a website to attract property sellers, and I am building my buyers list. Now this book is not magical in the sense that it will NOT do the work for you and the most important part is to get moving and take action.

In content I give the book 4 stars, this is due to that even though it is very concise, it is not the end all, you must use the information it gives you and do some research on your own to learn more, for example, the contracts that Larry uses I will not use, but instead employ a Real Estate attorney to draft some for me within the laws of my state (Florida). If you do draft them yourself, make sure that they comply with your state Real Estate laws.

I give the book 5 stars, due to that it gives you a plan of action apart from the great information that is

provided, and thus makes you take action which I believe is the most important factor in investing, do not get stuck for years like I did. I am a newbie myself and I learned a lot from the book, and now feel that I am on my way to doing my first deal.

Best regards,

Marvin Hernandez
