## Review

"The volume is clearly written, impressively argued, and transparently structured." --Journal of the History of Philosophy

"[Her reading] does much to dispel some of the cruder characterizations of Hegel's criticisms of Kant, and to show that these criticisms are deeper than often supposed . . . [The book] will therefore clearly make a considerable mark on any future debates in this area, and I would expect it to become a central point of reference."--Robert Stern, British Journal of the History of Philosophy

"The book is carefully argued and gives the most comprehensive account yet of Hegel's engagement with Kant's theoretical philosophy . . . As a whole, this book sets a new standard for research on the relation of Kant and Hegel. . . It should be required reading for anyone hoping to comprehend the origins and aims of Hegel's project."--Dean Moyer, Mind

"Sedgwick's interpretations of the nature and roots of Hegel's critique should be immediately adopted as the new standard line."--David Landy, Kantian Review

"Hegels Critique of Kant is a truly exemplary work of scholarship and will hopefully become regarded quickly as a classic study on one of the most interesting yet difficult philosophical relationships one can encounter."--Paul Giladi, University of Sheffield

"Hegel's Critique of Kant amply rewards the patience of those who have been eagerly awaiting a book-length treatment of the position Sally Sedgwick has been developing over a number of years through her engagement with classical German philosophy. The book offers an original thesis with characteristic clarity, fine conceptual articulation and an expository style that combines the virtues of immanent interpretations with those of reconstructive ones. Careful reading of the primary texts is put to the service of showing what is true in our philosophical past."--Katerina Deligiorgi, Notre Dame Philosophical Reviews

# HEGEL'S CRITIQUE OF KANT: FROM DICHOTOMY TO IDENTITY BY SALLY SEDGWICK PDF

Sally Sedgwick presents a fresh account of Hegel's critique of Kant's theoretical philosophy. She argues that Hegel offers a compelling critique of and alternative to the conception of cognition that Kant defended in his "Critical" period. The book examines key features of what Kant identifies as the "discursive" character of our mode of cognition, and considers Hegel's reasons for arguing that these features condemn Kant's theoretical philosophy to scepticism as well as dualism. Sedgwick goes on to present in a sympathetic light Hegel's claim to derive from certain Kantian doctrines clues to a superior form of idealism, a form of idealism that better captures the nature of our cognitive powers and their relation to objects.

Very carefully argued

By David G Carlson

This book is mostly about Hegel's earlier Jena works and the critique Hegel develops there of Kant and also of empiricists such as Locke and Hume. It is a wonderful summary of Kantian metaphysics and Hegel's reaction to it (as it is gleaned from these Jena works). It is a pleasure to read. If I have any complaints, the author purports to rescue Hegel from the criticism that Hegel is a shallow reader of Kant. No names are named. I would be curious to know who would dare to make such a suggestion, since it is very apparent to me that Hegel reads Kant with laser clarity. Also, the *Science of Logic* does not seem to figure in this book, even though the *Science of Logic* profoundly interacts with Kant and can even be viewed as a running commentary on Kant. But perhaps that's a separate book project--and a formidable one. Given the book's intended scope, it is a very impressive achievement and a great contribution..
