What if werewolves were real?

What if a wizard powerful enough to rule the world only wants to write plays and drink tea?

What if Dracula lived in Florida and tried to tan to death ... more than once?

Welcome to the life of Lilith Mercury.

This collection is being offered at a special price.

This mammoth collection (nearly 600,000 words of content) includes all SEVEN books in the Lilith Mercury, Werewolf Hunter series. This series focuses on the life of Lilith Mercury, a werewolf Hunter who is also half werewolf. Did I mention there are several sexy men in her life? This story has graphic violence, and graphic sex. It also has a new take on the origins of werewolves and vampires.

There's monsters, alpha werewolves, vampires, wizards, romance, and lots of ass-kicking.

This series gets hotter as it goes. There are multiple partners in this series. If that offends you, turn back now. No werewolves were harmed in the making of this series.

This set includes:

1. Red
2. Object of My Affection
3. The Dread Moon
4. Original Sin
5. A Dream Forbidden
6. The Bleeding Heart
7. After Dark

WARNING: This boxed set contains graphic language, graphic violence, and graphic sex. No werewolves were harmed in the making of this series.

A definite must have

By Larisa Edwards

My first introduction to Tracey's writing was *Red*, the first book in this series. I had to have them all. When I couldn't get all the books in one format I rebought them so I could have them all together. No I can have them in one awesome book.

This series is my all time favorite. I've read each several times and still find myself thinking of the characters. All the characters are so well written they may become real in your mind, even the secondary characters. It follows the life, trials and growth of Lillith as she learns of love and heartbreak as well as secrates and mysteries from her past and heritage. There are several men in her life that all hold a special place in her heart, and play particular roles in her growth and development. Full of action, adventure, love, heartbreak, laughter, and wild twists and turns along the way.

I hated to see this series end, but now with them all together it makes taking the adventure again so easy. I recommend anyone who gets this book to hold onto you heart and get ready for the love of your life.

Lilith Mercury, werewolf hunter is one of the best series I've read

By book-a-holic

Don't start this series unless you are prepared to go the distance. You will be drawn in with these complex characters and the fast paced story line. I have rated all of this series at 5 stars in my reviews, but this complete book series needs more/better editing. Great fantasy story line and I truly enjoyed this book as well as the rest of this series! *Lilith Mercury, werewolf hunter* is one of the best series I've read, and that is saying something as much as I read. Always waiting for the next in the series!! Tracey H. Kitts is HIGH on my to read list!! Fans of Laurel K. Hamilton will enjoy this series, and there are explicit sexual scenes and multiple partners, starting around book 4.
