Best part is it was quick to read!

By Vernell Jr.

I've read a couple of different books on resumes and I ended up liking this one a lot! Many of the other books are filled with so much information that you literally cannot apply even half of it to your resume. Not to mention they are so long that you are bored to death by the time you get to the end of them. This one is not like that. Yes, it is a bit shorter, but it does have a fair amount of useful tips and strategies in it that helped me while creating my resume. Best part is it was quick to read.
