fantastic.

By Elizabeth A. Chandler

Harry Lorayne has taught me so much. I really love all his books keep putting out great books for all to learn and enjoy.

5 of 6 people found the following review helpful.

Changed my life

By John Hayden

I got this book as a kid, in the 60s. The ad in the magazine said, "I'll give you a push-button memory in one evening, or your money back." Mnemonics has been a hobby and asset, vocationally and academically, ever since.

"Secrets of Mind Power" introduced me to Lorayne and his more-detailed "How to Develop a Super-Power Memory."

2 of 2 people found the following review helpful.

Mind opening

By Amanda Ney

This is a great book, referred to me by my boyfriend, he believes everyone should read this book, anyone that wants to succeed in life anyways. He only refers it to people he thinks would benefit from it. I do believe it helped me. I don't necessarily agree with every thing Harry Lorayne says (his opinions) but I do love what he has to say. Mostly pointing out how lazy people are and how reluctant people are to actually think and use their brains. It makes you self aware of yourself and of others.
