About the Author

Rudolf Steiner (1861–1925) was born in the small village of Kraljevec, Austro-Hungarian Empire (now in Croatia), where he grew up. As a young man, he lived in Weimar and Berlin, where he became a well-published scientific, literary, and philosophical scholar, known especially for his work with Goethe's scientific writings. At the beginning of the twentieth century, he began to develop his early philosophical principles into an approach to systematic research into psychological and spiritual phenomena. Formally beginning his spiritual teaching career under the auspices of the Theosophical Society, Steiner came to use the term Anthroposophy (and spiritual science) for his philosophy, spiritual research, and findings. The influence of Steiner's multifaceted genius has led to innovative and holistic approaches in medicine, various therapies, philosophy, religious renewal, Waldorf education, education for special needs, threefold economics, biodynamic agriculture, Goethean science, architecture, and the arts of drama, speech, and eurythmy. In 1924, Rudolf Steiner founded the General Anthroposophical Society, which today has branches throughout the world. He died in Dornach, Switzerland.

It can be the one that actually love reading.

SEXUALITY, LOVE AND PARTNERSHIP: FROM THE PERSPECTIVE OF SPIRITUAL SCIENCE BY RUDOLF STEINER PDF

Rudolf Steiner presents the human soul dilemma, split into male and female attributes... but offers a path of development which will eventually lead to overcoming these - what Jung called 'individuation', a merging with the true self or true ego of the human being.' - from the Introduction. We live in a sexualised society, surrounded by sexual imagery and content in almost every area of life. This presents us with many challenges, including an increasing blurring and confusion between love and sex; strife between men and women over their roles in society; and a consistent assault on the innocence of childhood. Despite the sensibilities of his time, Rudolf Steiner made a huge contribution to our understanding of the complex theme of sexuality. In this freshly-compiled anthology, Steiner describes the point in evolution at which human beings split from being androgynous and single-sexed to becoming male or female. He traces the changing roles of the sexes in society, from the matriarchal past to today's patriarchal dominance. The division of the sexes brings suffering, but also the possibility of achieving higher stages of love. In the distant future, humanity can evolve sexuality into a new form, with even the possibility of reproduction being metamorphosed. Refreshingly, Steiner is not judgmental and does not preach asceticism. He recognises the 'all-too-human' frailty people confront in their personal lives, even in the case of great individuals such as Goethe. Sex is a necessary stage of human evolution, and the split nature of the human being is a fact of our age. Its healing will be gradual but, like Amfortas in the Grail story - whose wounded groin was a metaphor for amorous misadventure - we can all be healed through love and compassion

A Good Compilation

By Sonjia Michaels

This book does what many of us try to do on our own so we may get a more complete picture: compile many lectures on the same subject. It is enlightening to be able to delve deeper.
