4.25 stars--fast paced, intense, romantic

By Sandy S.

4.25 stars--SHATTERED is the third instalment in Cynthia Eden's contemporary, adult LOST romantic suspense series focusing on the men and women of LOST (Last Option Search Team). This is criminal psychologist Dr. Sarah Jacobs, and dark and dangerous businessman Jax Fontaine's storyline. Although SHATTERED is the third in the series, it can be read as a stand alone without any difficulty.

Told from several third person perspectives SHATTERED focuses on a killer who has targeted both Sarah Jacobs and Jax Fontaine. Sarah's past is mired in death; a guilt she harbours for the sins of another, and with it comes Sarah's resolve of acceptance for something of which she was never responsible. When a series of copy cat killings hits too close to home, Sarah finds herself partnered with Jax Fontaine -a man with an even darker past and dangerous secrets. As the threats against Sarah begin to escalate, the police begin to look at Jax as a possible suspect when all of the clues lead back to the man in question.

The relationship between Sarah and Jax is one of mutual attraction. The sexual energy is palpable; Jax is a man who knows what he wants, and he wants Sarah for now and in the future. Jax is an enigma; a sexy but dangerous man whose power and energy commands respect as well as doubt about his true intent. The sex scenes are provocative and seductive. Sarah and Jax were first introduced to the reader in the previous story lines when Jax's prior relationship with Emma Castille (Twisted #2) resulted in jealousy and emotional turmoil for Emma and former FBI agent Dean Bannon. Forensic specialist Victoria Palmer's story is building; her attraction and potential future with former detective Wade Monroe is gathering steam; Victoria may be a serial killer's next intended victim-a serial killer that is all too familiar to Victoria Palmer.

SHATTERED is a fast paced, intense, romantic suspense storyline with a series of twists and turns; a thriller where there is more to the story; a mystery about the who, where and why. Cynthia Eden pushes the proverbial envelope with her amazing ability to keep the reader in suspense until the very end.

Shattered will stay with you long after you are done reading.

By Gerianne Slavinsky/Southern Yankee Book Reviews

This is a book that will stay with you after you are done. I loved this book and it picks up right where Book #2 lets off. The storyline is gripping and keeps you on the edge of your seat while you are reading it. I kept trying to read faster because I could not wait to see what would happen next, but then when I finished I wished I had read slower because I didn't want it to end. Sarah and Jax are super together and so well written they seem to take you along with them on their crazy thrilling ride! Since these were the last two single characters we knew it had to include at least one of them in a romance, but why include only one when you can get both? Loved the way they work together both on cases and romantically. If you are looking for a romantic suspense novel to read that will keep you glued to the pages, this is it!

3.5 stars

By Erin S. Burns

This is the third book in the series. While I do think this can be read as a standalone, I have read the previous two and enjoyed them, and I think it does make the characters more meaningful, so I highly suggest reading this series in order. As I have said before Cynthia Eden's books are like crack for me. They are addictive, with a quick short high, that doesn't last long, and leaves you scrambling for the next one, often with very little memory of that previous high. Fortunately for us readers, book crack is not in fact actual crack, and so we are free to indulge as we please and as often as we please.

LOST, Last Option Search Team, is a group that finds the missing. All the members have their demons, their secrets, for why they ended up where they are now. Dr. Jacobs secrets seemed to be darker, the way she can put her self into the minds of killers and the hints about her past, and that seeming couldn't have been more true. I'll admit though, I was kind of hoping she'd end up with guilt stricken good guy Wade, but this was so much better.

Jax Fontaine has secrets, secrets from those around him, and secrets even from himself. He's dark, and edgy, and oft times brutal. But he can handle Sarah's darkness. And from my perspective, he's sexy and I could just eat him up. However, I am completely unsure who the hell that man on the cover is supposed to be, because it certainly isn't Jax Fontaine,

So let me get the negatives out of the way first. For those who are bothered, this is sort of insta-love, or at least insta-lust. Granted it started in the previous book, but that only adds a couple of days to their relationship. It worked fine for me, but your mileage may vary. There was also a rather lackadaisical approach to birth control that I was less than pleased with. But that is my particular hot button, so again, YMMV.

But on to the good. This book was a roller coaster of twists and turns. Just absolutely dozens of twists and turns. By the end of it was completely shocked by who the villain turned out to be, and that doesn't happen too often. I may not completely guess, but they are almost always on my radar. This one just hit me with several blind sides. The chemistry between the two main characters was smoking and sweet. We got just enough glimpses to be sure previous couples were still on the right path to their happily ever afters without it being so much that it overwhelms the current story, or that I think it would be intrusive to new readers. And like I said, the action and the mystery kept me absolutely riveted.

Eden's romantic suspense don't usually hit my re-read shelves, they just aren't that compelling or deep. But they are always consistent and I devour them gleefully because she never lets me down. She's probably also one of the more prolific writers on my must read list with over 60 titles between her paranormal and her romantic suspense lines, and I haven't had a true dud yet. So for a book crack dealer, she's always my best bet. Shattered is great addition for the addicted, and I can't wait for Victoria and Wade's respective stories.
