Yeah, on-line e-book [The Art Of Spiritual Harmony By Wassily Kandinsky](#) is a sort of electronic e-book that you can obtain in the web link download supplied.

THE ART OF SPIRITUAL HARMONY BY WASSILY KANDINSKY PDF

2014 Reprint of 1914 Edition. Full facsimile of the original edition, not reproduced with Optical Recognition Software. Wassily Kandinsky's contributions as a theorist were arguably more influential on modern art than any of his paintings. In this work, first published in 1914, Kandinsky both promotes and defends a form of art in which painters express themselves in abstract terms independent of the material world around them, much as musicians do. Divided into two parts, "About General Aesthetic" (including an examination of geometrical forms) and "About Painting" (a discussion of the psychology of color and the language and form of color), the work offers an insight into the mind of one of the most renowned of all abstract painters and a preview of the art that he was to produce in the years to come. Russian painter WASSILY KANDINSKY (1866-1944), was one of the most famous artists of the 20th century and pioneered abstract art.

misleading and falsely advertised

By Shelley - Amazon Customer

Hugely misleading. This is actually *Concerning the Spiritual in Art*, with a different title. It is put forth as though it were a different book, which really is irritating. Having been misled by Amazon, I ordered the book, only to discover that I already owned it, since this book is no other than *Concerning the Spiritual in Art*. I was so excited to read something by Kandinsky that I had not read before, only to find that I had been duped and misled. I would like my money back.

4 of 4 people found the following review helpful.

Thinking in color

By Christopher M Messinger

An incredible expose on theory behind art and thought-provoking insights behind abstract art in particular. Read this book in a day and walk away transformed by the intellectual transcendent nature of abstract art.

Misleading title, worst edition possible

By Benjamin D. Weinberg

Do not buy this. The title "The art of spiritual harmony" made me think it was a different book, but it is actually the same book as "Concerning the Spiritual in Art." However, this edition is absolutely awful. I got the kindle version. It was OCR scanned and the words were badly auto-detected with innumerable mistakes, there is no chapter, or paragraph structure, and all the images are gone. There is a lovely version of this book available in print and on Kindle through Amazon, called "Concerning the Spiritual in Art." Pay the extra couple bucks and get a readable book with pictures. It's a great read, and well worth the time.
