Special-warfare devotees will find this to their liking: an insider's account of the Navy's amphibious commandos known as SEALs, by one of the group's most controversial veterans, along with Weisman (coauthor of *Shadow Warrior*). Marcinko describes his combat adventures in Southeast Asia in the '60s; his command of SEAL Team Six, one of the most effective counterterrorist outfits in the world, in the '70s; and his pioneering leadership in the '80s of Red Cell, a unit designed to test the Navy's vulnerability to terrorists. Super-macho in outlook and behavior, Marcinko delights in recalling the traditionally gross behavior of the SEALs as well as his own unique experiences such as eating the brains of a live monkey to impress his Cambodian allies. The super-secret Red Cell successfully penetrated many key U.S. naval installations, creating so much havoc that Marcinko was arrested. He is evasive about the conspiracy charges brought against him but reveals that he is currently serving time in a federal prison. Marcinko's anti-authoritarian behavior, as he improvises his own doctrine of unconventional warfare, makes for entertaining reading. Military Book Club selection.

An autobiography of a career naval officer who dropped out of high school, enlisted in the U.S. Navy, and spent his career struggling to win acceptance for special warfare SEAL (sea-air-land) units within the Navy establishment from the late 1950s to the present. Marcinko provides detailed descriptions of the early transformation of underwater demolition teams (UDT) into SEAL units. With interesting vignettes about training and actual missions during the Vietnam War, he gives a close-up view of this specialized and little-known brand of warfare. Marcinko's participation in the Iran hostage rescue attempt in 1980 and the U.S. invasion of Grenada in 1983 provide a perspective vastly different from the accepted versions of these events. However, the overuse of salty language throughout the book that lends new meaning to the phrase "curse like a sailor" and Marcinko's polemical accounts of his struggles to win acceptance for specialized warfare within the Navy are unfortunate. Not a necessary purchase. Military Book Club main selection.

The stormy career of a top Navy SEAL hotspur. Commander Marcinko, USN Ret., recently served time at Petersburg Federal Prison for conspiracy to defraud the Navy by overcharging for specialized equipment--the

result, he says, of telling off too many admirals. It seems that his ornery and joyous aggression, nurtured by a Czech grandfather in a flinty Pennsylvania mining town, has brought him to grief in peace and to brilliance in war. Serving his first tour in Vietnam in 1966 as an enlisted SEAL expert in underwater demolition, Marcinko returned for a second tour as an officer leading a commando squad he had trained. Here, his accounts of riverine warfare--creeping underwater to Vietcong boats and slipping over their gunwales; raiding VC island strongholds in the South China Sea; steaming up to the Cambodian border to tempt the VC across and being overrun--are galvanic, detailed, and told with a true craftsman's love. What did he think of the Vietcong? ``The bastards--they were good." His battle philosophy? ``...kill my enemy before he has a chance to kill me....Never did I give Charlie an even break." After the aborted desert rescue of US hostages in the Tehran embassy, Marcinko was ordered to create SEAL Team Six--a counterterrorist unit with worldwide maritime responsibilities. In 1983, the unit was deployed to Beirut to test the security of the US embassy there. Easily evading the embassy security detail, sleeping Lebanese guards, and the Marines, the SEALs planted enough fake bombs to level the building. When Marcinko spoke to ``a senior American official" about the problem, the SEAL's blunt security advice was rejected, particularly in respect to car-bomb attacks. Ninety days later, 63 people in the embassy compound were killed by a suicide bomber driving a TNT-filled truck. Profane and asking no quarter: the real nitty-gritty, bloody and authentic. THE ROGUE WARRIOR BY RICHARD MARCINKO PDF

Brilliant, tough and totally lethal, Richard Marcinko often frightened his own commanders as much as the enemy. But in a blistering military career more harrowing than any Hollywood adventure, this maverick leader of the elite, ultra-secret SEAL TEAM SIX always fought on the side of freedom.

Now you'll join him... Trapped with 40 pounds of high explosives in a cross-fire of Khmer Rouge gunners... Storming a frozen oil rig on the North Sea... Hurling through the night sky to a suspected den of terrorists and a stolen nuclear weapon-- with a parachute that won't open. You'll also hear the stories behind the tragic Delta Force rescue of American hostages in Iran.

Loaded with real action and rough humor told in the author's own words, "Rogue Warrior" will hold you prisoner in a war of shadows and secret missions only the bravest of heroes ever survive.

not as good as it was when conceived

By Carl Spmoer

Very interesting story of the struggles of one very determined warrior. He had to fight the establishment most of his life and after creating Seal Team Six, he had no opportunity to lead them into actual battle. Seal Team Six is what it is today, however, not as good as it was when conceived, but still the most effective special ops unit in the world. On several occasions he was asked to test the security of different military bases and after demonstrating that the bases had little if any security, he was severely criticized for doing such a good job. The base commanders and the admirals in charged were very embarrassed by him demonstrating how bad the situation was. He even went aboard a couple nuclear submarines and set dummy bombs on the reactors. He and his men were able to go about any where they wanted to go on the bases without causing much concern. In one of his escapades in (Red Cell) he actually went into the office of the CNO and went through his files . He and his Seals were really sneaky. Great reading.

Tough Hombre

By Eddie Wannabee

I am sure the author deserves all the accolades, and has earned all the medals of a distinguished career. This guy is John Wayne multiplied by 10, very full of himself, as he describes how he challenged one and all, that did not meet his high standard of training and demeanor. I found it interesting enough, but because of the nature of the way in which he talks about his life, and how he put in their place even Green Berets, as if compared to his outfit, there were of lesser impact, I grew a little skeptical as I read along. That he is tough there is no doubt, that he is larger than life, either. Rogue Warrior by Richard Marcinko is a wild ride, from a highly decorated and respected american warrior. To that extent this seal conveys the certainty that he would

be the right fighter to have around in a serious fight. 3.5 Stars.

Rogue Warrior

By Ynotm8

This is a review for Rogue Warrior, not Red Cell.

The best non-fiction war book out there today about the Navy S.E.A.L.'s and how Seal Team SIX was created. This is the auto-biography of Richard Marcinko and how the U.S. Navy tasked him with creating the world's best counter terrorist team. He does talk a lot about his Vietnam days as a SEAL and how he operated and came up with the idea for SEAL TEAM SIX, even though the Navy only had 2 SEAL Teams at the time.
