Update of an already excellent work!

By Amazon Customer

This new version of Webster's Work on the Roman Invasion of Britain includes the latest fieldwork and is for the serious researcher as well as the student who just wants to get smarter quickly. The well written prose, unobtrusive references, clear maps, crisp line drawings and extensive Appendixes make this a top shelf addition to your library. The photographic plates, while in Black and white, are clear and supplement the text. You should get this, even if you have an earlier edition, for the revisions and corrections are worth the paltry cover price.
