Broken down into simple components, filled with clear examples, and backed up by countless studies, Think and Get Laid will guide you out of the false beliefs hurting your success with women and show you what women are biologically wired to find attractive.

Men today lack success with women because they simply do not know or understand what women are attracted to.

Unlike conventional dating advice, Think and Get Laid focuses on natural attraction and what causes attraction on an instinctive level. Not on what women claim they want ("I just want a nice guy!") or what males in general believe women want ("Women only want men with money and cars!").

The focus on natural attraction means that what you learn works on all women in all situations, no matter age, nationality or the type of relationship you want. What you learn in Think and Get Laid is universal.

Women don't choose to feel attraction. Attraction is not a choice, and Think and Get Laid reveals what all women are naturally hardwired to respond to.

The keys essential to unlocking female attraction revealed in this book are so universal that they'll work amazingly whether you want an impressive string of one night stands, true love, abundant casual sex without commitment, or just a sexy girlfriend.

I'm so relieved I read this book. It greatly changed my viewpoint on man-woman relationships.

By Saleh Mohammed Radaideh

This book completely changed my outlook on the issue of man-woman relationships. Usually men would think that sensitivity and extra femininity in their character would have the woman appreciating his 'love' and 'care'. This book busts this myth, and pretty much all myths that are currently held for this issue. The book teaches men to be dominant, confident at all times, and bold in all confrontations with women. It tells us of how man shows a woman how he desires her, while doing so in a brave and courageous manner. It teaches men to buckle up, grow loads of confidence in their veins, and approach women only if they have done so. This book changed the lenses in which I see such situations. From now on, the words of this book will echo in my head whenever I confront a woman. This book is a myth buster, and is also a teacher to all those who just can't get along with the opposite sex. Whenever I have a friend who is in-confident in such situations, I'll surely tell them about this book. It's definitely a game changer for all men.

Excellent Book With Lots of Details!!!

By Rosemaiden23

This book will tell you the heartbreaking truth when your woman is interested in you or is already cheating on you with somebody else. If you can't take knowing the truth then I strongly advice that you do not read this book. The body language of women written in this book is highly accurate based on my experience. They are very easy to tell and you won't miss them, even the simple movements. You'll know for sure your woman's thoughts and feelings using this as a guide.

This eBook is very clear in its descriptions of the different signs, body language and gestures on identifying whether a woman likes a guy or not. I myself got addicted to analyzing women and figuring out what is really on their minds. Try it once and you'll find yourself trying it over and over again.
