TITAN SINKING: THE DECLINE OF THE WWF IN 1995 BY JAMES DIXON PDF

Throughout the history of the Wwf, there have been times of prosperity and times of hardship, cycles that shape the ethos of the company by forcing changes to its infrastructure and on-screen direction. The one constant throughout three decades of change is Vincent Kennedy McMahon, the stalwart puppet-master who captains the ship. Unflinching, thick-skinned, and domineering, McMahon has ultimately outlasted all of his competition and come out on top of every wrestling war he has waged. In 1995, he very nearly lost. Titan Sinking tells the tale of one of the most tumultuous, taxing and trying years in Wwf history. This book gives the inside story of all of it. Find out the real story of the year, and learn how 1995 brought Wwf to the brink.

Better to read about it than watch it!

By Scott Keith

I've been watching the trainwreck that is 1995 WWF on the Network lately, and this was a great overview of what was happening behind the scenes at the time. Very easy to read and Dixon gives backstory on all the players and happenings leading up to the major events. Highly recommended!

Author Loses Credibility in Otherwise Entertaining Read....

By Ramy

The book was such a fun read that I was certain I was going to recommend to wrestling friends of mine. Until I got to the pages that detailed a planned feud between Undertaker and Razor Ramon that would culminate at WrestleMania XI. I was shocked that I'd never read anything about this. Not only had their been plans for a match, but, as the author explains, both wrestlers had shot vignettes to build for the match. I was too skeptical. So, after doing a minute (give or take) of research, I came across the author's source. A wrestling blogger that offers a disclaimer in the very next paragraph which states "Alright guys, this didn't really happen."

<http://johnsontranscript.com/2012/12/06/scott-hall-shoot-deleted-scene/>

For all I know, this is the only misstep in an otherwise awesome book to read. But now I'm in a predicament.

If I continue to read the book and find out something I never knew before, how do I know it's even true? The author should know his material well enough to separate fact from fiction. The reader shouldn't have to decide whether the last paragraph is as truthful as the one before. The author loses all credibility with this passage alone. Which is a shame. Because if this is the only misstep in the book, then removing it would make this book a highly entertaining read.

5 of 5 people found the following review helpful.

This was a great book. I read it over 3 nights

By Mike Vail

This was a great book. I read it over 3 nights. It's also the perfect time to purchase since the WWE Network is free for November, so you can look up some of the old PPVs and relive the nightmare that was 1995.

The book does a great job of setting up the 1995 year with all the players who either left (Hulk Hogan, Savage) or were overlooked (Bret Hart.) and the steroid scandal. It was fun to relive that period where I went from a die hard fan of the 80s to quitting watching all together after the King of the Ring 1995.

There's a lot of good stories, ribs, and general inside information that will help shed light on why certain events occurred the way they did.

I highly recommend for fans of the 90s WWF.
